EXPERIENCE

Independent Freelancer. San Francisco, CA
Industrial / UI Designer, Jul 2017 - Present

Providing various Industrial Design and UI Design work for early startups.

Manta Product Development, Inc. Cambridge, MA
Industrial Designer, Nov 2013 - Jul 2017

Worked as part of a team to come up with design solutions for innumerable clients. These clients ranged from highly innovative startups coming out of M.I.T. and Harvard to Fortune 500 companies. Experience included research, sketching, model making (3D printing and traditional), packaging design, UI/UX design, computer modeling, photorealistic renderings, and final production oversight.

VIX, Inc. Boston, MA
Lead Designer / Co-Founder, Jun 2016 - Jun 2017

Co-founded company with a business partner. Responsibilities included brand identity, marketing, mobile UI / UX design, prototyping, and website design.

Farm Design, Inc. Hollis, NH
ID Intern / Contractor, May 2013 - Nov 2013

Collaborated with a creative team to deliver projects on tight deadlines. These projects included research, model making, sketching, and computer modeling. Experience also consisted of conceptualizing augmented reality use cases for a multi-billion dollar startup; these concepts were later used as patents.

CLIENTS

Amazon Robotics, Boston Scientific, Magic Leap, Cardinal Health, 3D Systems, Rethink Robotics, Hologic, Perkin Elmer, Haemonetics, Corindus, NeuroMetrix, Medrobotics, Portal Instruments ... and many more.
